"GIFTS FOR THE NATION"

Due to our foresight in purchasing all available pieces of antique crystal from markets abroad, our selection of French and English Hurricane prism Lamps and Candelabra with prisms is still very complete.

As the markets for securing merchandise of this character are practically closed on account of war conditions, the prudent buyer will do well to grasp what may be his final

opportunity to obtain

135

Of many of the numbers, there is only one pair obtainable. Please call at your earliest opportunity and see the display while it is still interestingly intact.
